

## FILES INCLUDED

It's included a folder with the digital stickers as separated files in PNG image format for using digitally. And, there is a PNG with all the digital stickers together, I mean, a "digital stickers sheet", for cropping if desired.

Also, there is a PDF file with all the stickers for printing if you want to make your own DIY stickers. It's only print them on sticker paper and cur them.

## DIGITAL USE

For using the stickers digitally on a digital notebook, journal or planner, all you have to do is insert the PNG file with the sticker you want. Or crop the desired sticker from the PNG file stickers sheet with all of them.

## PRINTING INSTRUCTIONS

We suggest to print the files with Adobe Reader, also on high quality for better results. The files size is in US Letter, we recommend to print on this paper size, but you can print them on A4 paper, too. Because it has enough margin to print correctly on A4 size paper.

1. Choose the right paper, A4 (8.3" x 11.7") or US Letter (8.5" X 11") size paper. It's recommended on Letter size paper.
2. On your printer options make sure that the Page Set Up corresponds to the paper size, Letter or A4.
3. Set your printer on 'Actual Size' or '100% Scale' (do not scale to fit), even if the left and right borders appear to be out of the page. There is no problem, it has enough margin for the sticker print completely.
4. Select 'Auto Portrait/Landscape' orientation.
5. Print.

## IMPORTANT

Note that the colors from the images on your screen may vary slightly from the printed version depending the monitor and printer you use.
